## Environmental Policy

M/s Greta Energy Limited is committed to sustainable industrial development and environmental protection in all its operations. The Company recognizes that responsible environmental stewardship is essential for long-term business sustainability and community well-being.

To ensure environmentally responsible operations, the Company commits to the following principles:

### 1. **Compliance with Environmental Regulations:**

Ensure compliance with all applicable environmental laws, regulations, and conditions stipulated in Environmental Clearance issued by regulatory authorities.

### 2. **Implementation of Environmental Management Plan (EMP):**

Implement the Environmental Management Plan prepared as part of the approved Environmental Impact Assessment to minimize environmental impacts of project activities.

### 3. **Adoption of Cleaner and Low-Carbon Technologies:**

Adopt advanced technologies energy efficient operations, and **Carbon Capture & allied activities** systems to reduce greenhouse gas emissions.

### 4. **Pollution Prevention and Control:**

Install and operate efficient air pollution control systems, wastewater treatment facilities, and solid waste management systems to prevent and control pollution.

### 5. **Resource Conservation:**

Promote efficient utilization and conservation of natural resources including water, energy, and raw materials through adoption of energy-efficient technologies and recycling practices.

### 6. **Waste Reduction and Circular Resource Use:**

Minimize waste generation and promote reuse and recycling of process by-products and other materials wherever feasible.

### 7. **Greenbelt Development and Biodiversity Protection:**

Develop and maintain greenbelt and plantation programs around the plant premises to improve environmental quality and ecological balance.

### 8. **Environmental Monitoring and Continuous Improvement:**
